

ADOPTION
CERTIFICATE

Name Surname

You're helping WWF to protect the future of tigers and to tackle some of the biggest environmental challenges facing our natural world today.

Thank you

This special gift is from Friend's name:

This certificate is a gift for you. I hope you like it.

The director of WWF Greece

Dimitris Karavellas

TIGER

THREATS

POACHING AND ILLEGAL WILDLIFE TRADE

The parts of at least 110 tigers were seized in Asia annually between 2000-2015. This equates to over 2 tigers per week seized in illegal wildlife trade. Mainly killed for luxury products, using their skins and bones.

HABITAT LOSS

Gradually, tigers are being forced into small, scattered islands of remaining habitat. Tigers range has reduced by 95% since historical times.

HUMAN TIGER CONFLICT

As tiger range declines, they come closer and closer to people. This can lead to conflict as people protect their families and livestock from tigers.

LOSS OF PREY

Reduction in tiger prey, due to hunting and habitat deterioration, has a direct effect on wild tiger populations.

OUR WORK

Animal adoptions like yours give a huge boost to our work. They not only help fund projects to work with local communities to monitor tiger movements, reduce poaching and help people to realise benefits from living in close proximity to wild tigers - but they also support our other vital work around the world.
